Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Solvent Flag 2

Description:

EMBLEM SOFLA2 is an outdoor textile for high quality prints results.

Due to the airy fabric it is an excellent media for the production of flags by using solvent based inks.

Because of a better handling SOFLA2 has been laminated on a release paper.

Processing:

It is necessary to wait 24 hours after printing before putting the flag outside to make sure that the ink is dry and the print became water proofed.

After printing it is not required to remove excessive ink by washing.

To avoid fingerprints the use of cotton-gloves is advisable.

Application:

outdoor flags
